

OCUN 

JETT LU

RELIABLE CLIMBING
SHOE FOR LONG
CLIMBS

Designed for technically challenging routes where precise footwork matters.

The long and partly covered lacing system ensures a precise fit and protects against abrasion. The hard midsole, combined with a slightly larger volume in the instep and toe box, provides stability and comfort for extended climbing sessions, whether on multipitch or long sport routes.

- Last with medium asymmetry and larger volume in the instep and tip
- Precise lacing, covered in the tip to avoid abrasion of the laces
- Chosen materials and wide breathable tongue increase comfort in long climbs
- Super adhesive CAT 1.5 rubber works even on tiny footholds
- Seamless heel construction for maximum comfort
