SPORT CLIMBING SHOE
THAT DOES NOT
COMPROMISE ON
COMFORT

A climbing shoe for those who seek the ideal balance between comfort and performance.

Featuring our super adhesive CAT 1.5 rubber, this shoe delivers excellent grip and support. It is now fully vegan, using only materials with no animal-derived components. The seamless heel construction enhances comfort and prevents pressure points, making it suitable for both gym and outdoor climbing.

- Last with medium asymmetry and a slightly higher volume in the instep and toe box
- Secure and precise fit while remaining easy to put on
- Rand construction and CAT 1.5 rubber provide the stability needed for hard climbing
- A reliable choice for both gym and outdoor climbing
- Seamless heel construction for maximum comfort
